Notice

**Temagami First Nation Councillor Douglas McKenzie Sr.
TFN Housing Portfolio invites applicants for the
Housing Advisory Committee – 1 Vacancy
Term ends July 2020 (Next General Election)**

Purpose and Scope

- The objective of the Committee is to make formal recommendations to Council regarding the development and on-going review of the TFN Nation Housing Policy.
- Consult with the TFN membership and obtain their input, and overseeing the housing policy's development and implementation.
- Make recommendations regarding annual priorities for housing, renovations, and water systems, efficient use of the budget monies, as well as long term planning for housing.
- Develop and make policy recommendations to Chief and Council to ensure that the housing programs are efficiently administered and implemented

Meetings

- The Housing Advisory Committee will meet a minimum of four times per year.
- Additionally special meetings may be called by the Chair for time sensitive matters, such as to discuss and make recommendations on critical/priority issues.
- The meeting will be as formal as the following agenda:
 - Call to Order
 - Adopt Agenda
 - Adopt Meeting Minutes
 - Declaration of Pecuniary Interest
 - Delegations
 - Housing Officer Report
 - Regular Business
 - Correspondence
 - New Business
 - Adjournment
- The Housing Advisory Committee meetings shall generally be open to the public.
- The Committee may go in-camera when specifically authorized by Council for any purpose deemed necessary by Council.

- The Committee shall only go in-camera when the Executive Director, or designate, is in attendance at that portion of the Committee meeting.

Membership

- The Housing Committee shall consist of a maximum of seven (7) members, one member of Council, the Housing Coordinator and 5 appointed members.
- The Chair of the Housing Advisory Committee shall be the Councillor appointed by Council to the housing portfolio.
- The Chair may select an Acting Chair, as required, for a meeting or part thereof for example in the case of a conflict of interest.

Chief and Council are inviting interested persons to submit a letter stating reasons why you are interested in joining the Advisory Committee and an indication of the skills and relevant experience you may bring to the committee. Chief and Council will review all applicants and appoint one (1) member.

MAIL /FAX/EMAIL APPLICATIONS by (Thursday, July 5th, 2018) no later than 4:00 pm to:

Dance Camp 2018

July 23rd-27th, 2018

LMLC gym

11th Annual Bear Island performance: July 27th at 2:00pm

This Camp is led by Christine Friday and assisted by Health Promotion and youth coordinators.

Time	Class	Age group
9:45 – 10:45	Creative movement, Dance Class & craft	4-6, Daycare welcomed!
10:45-11:45	Contemporary Dance, stretch & strengthening	7 -18
12 – 1	Yoga for Adults	14 +
12- 12:30	Lunch for Campers	
12:30 – 1:00 outside	Sports Activity	7 - 18
1:00 – 2:15	Contemporary Dance and choreography.	7-18
2:15- 2:30	Break Snack	7-18
2:30 – 3:20	Creating art for performance, T-shirts, back drop, masks and costumes.	All ages
3:20 – 4:00	Swimming or video	All ages

This camp will be a combination of dance, yoga, choreography and sports activities, including swimming with adult supervision. We will work towards a final performance that will be showcased and presented to community, family and friends at the end of the week.

Please provide a lunch for your child if you'd like them to stay at camp. Also, notify one of the workers about any food allergies your child may have.

By working together we strengthen ourselves, our families, our communities, our Nations!

Spiritual Advisor Visit

July 10 to July 12, 2018

Elder Louis Councillor will be in the community Tuesday July 10 to Thursday July 12. He will be available for individual appointments and for a Shake Tent. He will also be the TFN Pow Wow's Spiritual Advisor.

Louis is a spiritual advisor, a ceremonial leader and he conducts healing/doctoring. He is from the Lake of the Woods area and is a member of the Midewiwin Society. Louis has visited our community numerous times and we are fortunate to have him back again.

Please bring a bit of tobacco and any offerings.

Individual Appointments

Tuesday 10th & Wednesday 11th at Clinic

Individual appointments for spiritual advice, counseling, healing, doctoring etc. Call Donna at the Clinic to book an appointment.

Shake Tent

Thursday 12th 7:00 pm at L&R

Shake Tent is tentatively set for Thursday, starting around 7:00 pm. If you need help from the Shake Tent, please book an individual appointment or speak with Louis prior to the ceremony. All welcome. Ladies please wear skirts.

Please contact FHC 237-8900 with any questions.

WEDNESDAY, JULY 18TH 2018

YOGA CLASS

LMLC School Gym & Canoe House

12 -1pm

Ages 14 +

Yoga is led by Christine Friday, certified yoga instructor for 11 years. Christine teaches a vinyassa (flow) class that includes a variety of poses & postures that can be modified to suit all levels of training background. Learning to connect and breathe into the body allows mobility and the release of tension creating better body awareness. Feel better emotionally and inspired. Hosted by the Doreen Potts Health Centre, the class is free.

Wear comfortable clothing; bring water & a yoga mat.

The health promotion program also has yoga mats available
Please see the calendar schedule for the classes and location on the back of your page.

Shibastik & MC Red Cloud Concert

Shibastik, who has performed in the community several times, was joined by MC Red Cloud to perform an outdoors concert at the Laura McKenzie Learning Center on Indigenous Day. The concert drew an audience of 44 with a very broad age range. Shibastik and MC Red Cloud performed songs from their albums and freestyled with words that they had collected on the spot from the audience.

Around a dozen youth came out for the Shibastik workshop at the DPHC on June 20th. The youth attending collaborated to create a beat, write lyrics, and perform a song. They learned about sound, music, and lyric creation.

SHIBASTIK

A member of the Moose Cree First Nation, Shibastik (cree for 'underground flow') grew up in Moosonee, Ontario. He was inspired by life as a Cree hunter on the James Bay Lowlands, and his music and art aims to promote awareness and appreciation for both the land and First Nation culture. <http://www.shibastik.com/>

MC RED CLOUD

Born and raised in Los Angeles, MC Red Cloud recording artist, freestyle battle rapper, writer, visual artist and indigenous rights activist. He creates hip hop music that is influenced by his indigenous heritage. <https://www.instagram.com/mcredcloud/>

TILLIE MISSABIE FAMILY CENTRE

What beautiful weather we have been having lately! 😊

The daycare staff and families have been very busy the past few months with different activities, trips and training.

As some of you may have seen, the TMFC has a new boat. I had the opportunity to go to a meeting in September 2017 with Independent First Nations. The purpose of the meeting was to assist Independent First Nations with proposals to obtain funding through *The Journey Together/The Truth and Reconciliation Commission*. The main focus of our proposal was making connections with the land and more land based activities. In December 2017 we found out we were successful in obtaining funding. Some of the start up costs for the program which we applied for included funding for a boat, 2 snowmobiles, and sleighs. We were also able to purchase helmets and life jackets for when we go out on the snowmobiles or on the boat. Through the funding we have also been able to purchase an ice hut for next winter's outings. Programming funding includes funds for family trips to local pow wows, parent workshops, cultural activities, and financial assistance for families 0-6 to attend appointments for specialized services. I would like to say miigwetch to Tracy Paul for her assistance with the proposal.

Some of the activities we have done over the winter were: ice fishing, snowmobile trips out on the land, sliding, setting snares, and trips to the sugar bush.

This Spring was very busy. In May the daycare hosted a family Mother's Day dinner for all the daycare families. In May the daycare took the daycare children out to set net and showed the children how to clean fish as well. June was another busy month. On the 9th and 10th of June, the TMFC families had the opportunity to attend the North Bay Indigenous Centre Pow wow in North Bay. It was a beautiful weekend and everyone had a great time. On June 13th the daycare hosted a Father's Day fish fry. Miigwetch to Jamie, Alex, and Jessie for cooking the delicious fish and fries. On June 14th we had a parenting workshop for all parents facilitated by Martin Liberio. On June 15th the daycare staff had a day of training with Martin.

The TMFC has plenty of summer activities planned. Some of the activities that we have planned include: trip to the strawberry patch, beach days, outings/shore lunch with the elders, summer family trip, family camping trip, evening campfire/storytelling, and weekly trips for the preschool children and JK/SK to gymnastics. Event notices will go out the TMFC families closer to the event dates.

The daycare will be closed for the week of July 16 – 20th so the staff may attend the Native Early Childhood Education Conference in Sarnia, ON, hosted by Wapole Island.

If anyone has any questions in regards to any of the TMFC programming or have any ideas for programming, please feel free to stop by the daycare or give us a call.

Miiwetch!

Michelle Polson

TMFC Program Supervisor

LAURA MCKENZIE LEARNING CENTRE

LMLC 2018 Track & Field Team

Players: Denton, Mazzy, Wyatt, Sophia, Ania, Kazia, Brianna, Erickah, Alysha, Tyson, Amiah, Kiizis, Cylas & Jason

Coaches: Mrs. B, Mr. Fiske & Beverly

Thank you to everyone who helped out and supported this opportunity! With over 100 kids competing we had a lot of fun at St. Joseph Scollard Hall High School on June 6th. We are ALL hoping to do it again next year 😊

ANNOUNCEMENTS

Welcome! TFN Lands & Resources Office TFN Lands & Resources *Audrey Guppy, LAND CODE Implementation Coordinator*

Hello everyone! I am pleased to be joining the Lands & Resources Team as the new Land Code Implementation Coordinator. This is an exciting time for Temagami First Nation - regaining control over the day-to-day management of its reserve land and resources. I look forward to my role in assisting the Community in moving forward with Land Code initiatives.

There is a tremendous amount of work associated with implementing the Land Code. To start, we will be consulting with members on TFN's draft Matrimonial Real Property on Reserve Law and a Master Land Use Plan for Bear Island and the Proposed Reserve Lands. Please watch for Community Information Sessions with regard to these initiatives. Your participation is not only appreciated, but also needed.

I look forward to working with the Lands & Resources Committee and meeting with you at Information Sessions!

I can be reached at landcode@temagamifirstnation.ca or by calling 705-237-8600.

Over \$800 raised for Emily O'Sullivan-Carr. Thank you to all of the volunteers and donors. Stay tuned for future fundraiser events.

Thank you!

TFN'S CANOE HOUSE

**To preserve our heritage, revitalize our culture
and to practice our traditional ways!**

Chi-Miigwetch to all community members who came out to celebrate TFN's Canoe House, a newly renovated community and cultural learning space! Miigwetch to all the speakers who shared their stories, to the builders who completed the renovation project and the local artists who came to display and sell their creations.

Miigwetch to our funders FedNor and Temagami First Nation.

The Canoe House renovation project started in October 2017 and was complete by April 2018. Miigwetch to all the speakers who shared their stories, the builders who completed the renovation job and the local artists who came to display and sell their creations.

The Canoe House Collective is a group of like-minded folks who want to get involved in cultural art-based initiatives. Our next meeting will be at the Canoe House on Tuesday July 10, 2018 @ 12pm, NOON.

This summer our community birch bark canoe build is located at the waterfront at the Pier Market underneath the white canopy. Everyone invited to come on down to get involved and hands on with the build.

UPCOMING

The Birch Bark Canoe will be complete by the end of July 2018. We will be hosting a Canoe Launch Ceremony and Pot Luck Feast. All community is invited!

Please stop by and visit the Canoe House and sign our *Guest Birch Bark Scroll*

Tom McKenzie (pictured above) has completed repairs to the Government Dock, thanks for all of your hard work Tom!

FORESTRY FIELD TRIP with LMLC

TFN Lands & Resources

by Anthony Boucher, Forestry Technician

WAY TO GO ANGEL AND SADIE !!! Grade 7/8 2018 Forestry School Trip

Congratulations, Angel and Sadie!

The two girls from Laura McKenzie Learning Centre had the opportunity to spend a day May 29th learning about some of the timber harvest operations taking place on n'Daki Menan. The two girls had an early start from the island and got to Eacom's Elk Lake sawmill for a short talk from the company's Woodland Manager – Mr. Kyle Aird, who described Eacom's operations and outlined some of the many career opportunities the forest industry has to offer.

From there, the group headed to Willet Township with Mr. Aird, Sam Haystead (Operations Foreman) and Allan Legros (the owner of RTMI, the harvesting contractor). On the way to the jobsite; Sam Haystead gave the girls a brief description of all the different forest stands that we passed by, along with what types of timber were harvested and why they were harvested.

Once we were on the jobsite, the group learned about some of the ways that timber harvesting is carried out and how forest values are pre-

served for the future along with how forestry is carried out to protect forest values. They also learned onsite how to age a tree, along with how to tell the seasonal conditions based on its growth rings.

The forwarder that Sadie is standing on takes the logs once they have been cut from the forest to the roadside where they will be loaded on trucks and taken to the mill. Believed to be the highlight of the trip to Angel and Sadie was the chance to drive in the forwarder while it collected the logs from the Forest and placed the logs by the road.

Finally, On the way out we stopped for lunch by one of the lakes just off a previously cut forestry block. They learned that since the block was trying to mimic the use of fire they cut to the shore and a certain percentage of the lake.

Figure 1- Sadie and Angel driving in the forwarder while doing its operations.

TFN at the Aboriginal Forum 2018

TFN Lands & Resources

By David Laronde, Resource Development Advisor

On June 7 a contingent from TFN/TAA attended an Impact Benefit Agreement (IBA) workshop at the Mining Expo in Timmins. It was an eye opener to see how other IBA's have been working out or not.

The group got to hear firsthand from First Nation leaders and a lawyer's point of view on a variety of IBA case histories, pitfalls, remedies and recommendations. In essence the day was worthwhile as our group got some valuable insight into IBA's.

L-R: Resource Development Advisor David Laronde, TFN/TAA Councillor Michael Paul, L&R Committee Members Marie Paul & Arden H. Moore, TFN/TAA Second Chief John Turner.

We were the first ones there ... the room filled up after this photo was taken.

FACT SHEET on Inventus Mining Proposal for Bulk Sample - Pardo Project

TFN Lands & Resources

June 13, 2018

WHO Inventus Mining Corp. (the company) has been working with TFN /TAA since 2013 through positive and mutually respectful relations. The company is working toward defining a resource and potentially a positive “Development Decision”. The company has also been helpful to the TFN/TAA as we look to define economical resource projects on our proposed reserve lands.

WHAT **The Bulk Sample:** Inventus is proposing to Bulk Sample at four locations to reach a total weight of 50,000 Tonnes of ore grade broken rock ready to be transported and milled in Matheson, Ontario at the Black Fox Mill. The combined total effected surface area is 6400 m2 (or the equivalent of 1.5 football fields).

WHERE As the crow flies the **Pardo Project** is 25 km southwest of Bear Island or 20 km north of River Valley in Pardo Twp. Access is from Hwy 805 on all seasons logging roads. See the link below for Location, Geology and photos of the rock:

<http://www.inventusmining.com/home-1/>

WHEN The company hopes to conclude community consultation and approval of the **Draft Closure Plan** this summer and commence the bulk sample this fall and finish up in 2019.

WHY *Some background info*A 1000 tonne Bulk Sample was removed in 2017 and showed a grade of 4.2 grams gold/tonne while drilling indicated only 1 gram/tonne. It seems the only reliable way or method to define the gold grade variability of the host rock to be mined is to bulk sample. A larger bulk sample is now needed to accurately define a certifiable resource. A sample larger than 1000 Tonnes means the company has to move to “Advanced Exploration Stage” and a Closure Plan. Photos of the 1000 Tonne bulk sample are included in the link below:

<http://www.inventusmining.com/blog/>

terminology explained.....

THE DRAFT CLOSURE PLAN

The Draft Closure Plan: The closure plan is needed because the proposed Bulk Sample of 50,000 Tonnes can only be done if the project is at the “ADVANCED EXPLORATION STAGE”. Work done at this level requires a Closure Plan to ensure rehabilitation to the land affected is planned and financed before the work begins. A Community Information Session on the proposed work and Closure Plan is scheduled for July 4th at the *Laura McKenzie Learning Centre*. Inventus will be represented by key personnel and take any questions and explain the ins and outs of their proposal. While the information is technical it will be presented in layman’s terms. See the link below for a copy of the Draft Closure Plan.

https://www.dropbox.com/s/iffdeqhcaypp5oc/Inventus%20Closure%20Plan_Draft%202018.pdf?dl=0

ADVANCED EXPLORATION STAGE - At this stage of the Mining Sequence the company is establishing a grade for the deposit so they can move toward defining a resource and ultimately a development decision can be made. In summary the project is approaching the “**Development Decision**” stage. In the long run it would be in TFN/TAA’s best interest for the project to have a positive outcome and go into production so we benefit through an Impact Benefit Agreement (IBA).

Please come out to the Community Information Session on the Draft Closure Plan on July 4 at Laura McKenzie Learning Centre on Bear Island. For further information contact David Laronde – Resource Development Advisor (705) 237-8600.

Installing bolts to secure the back of the drift.

Approaching the ramp to go underground.

Standing in an old drift, 7 feet wide and 9 feet tall that were used to transport ore by rail.

ALAMOS MINE TOUR

During the quarterly IBA meeting at the Alamos Gold Inc. mine in Matachewan, four TFN Youth participated in an underground tour lead by Ken Davidson. The tour included an overview of mine operations, exploring old mining tunnels and going to a depth of 760 metres!

BREAKING NEWS FROM L & R

TFN Lands & Resources

by Anthony Boucher, Forestry Technician

The Lands and Resources Department is pleased to announce that we were chosen out of 200 applicants across Canada, and that we are one of 3 FN's in Ontario, to be approved for the Indigenous Community-Based Climate Monitoring Program. Through this program, we will be undertaking community-based climate data research over the next 3 years. We will employ one full time technician, and 2 youth over the period of 3 years.

Meegwitch to proposal authors John Shymko and Anthony Boucher!!!

Below is a snapshot of what Temagami First Nation research will entail.

The **Building Bridges Between Climate Data Obtained Through Traditional Anishinabek Monitoring and Current Scientific Climate Monitoring Systems on Lake Temagami** program will demonstrate how traditional knowledge and monitoring techniques can be used alongside scientific techniques to monitor how climate change is affecting the traditional Lands of the Teme Augama Anishnabai / Temagami First Nation.

This will be demonstrated via monitoring climate data

through **precipitation, temperature, and wind logs** on a daily basis, weekly logs of **water temperature** along with **ice thickness and depth** (season dependent).

Monthly **traditional knowledge mapping sessions** will be held to gain traditional knowledge on weather events, ice conditions, walleye spawning areas, and changes in the times of year of moose call and harvest.

WATER MONITORING, to assess how temperature changes are affecting the conditions of the water supply, will take place throughout the year. This will be done through the testing of water clarity and total phosphorous content to determine effects on potable water.

FLOW will be monitored in three creeks stemming from Lake Temagami to assess how creeks and habitat in those creeks are being affected by change in flow (walleye spawning habitat, bank degradation, etc).

ICE CONDITIONS will be monitored throughout the season through scientific metrics alongside the gathering of traditional knowledge.

MAPLE SAP COLLECTION annual periods will be monitored along with quality and quantity of the sap. This will determine how temperature is affecting maple sap production and harvesting.

MEDICINAL PLANT MONITORING through traditional knowledge gathering and documenting growth and harvesting times.

WALLEYE SPAWNING TIMES, spawning habitat, and conditions of eggs will be assessed to determine how the water temperature change is affecting the spawning habitats of one of the main traditional food sources for the First Nations Community.

MOOSE MONITORING for yearly changes in mating times will be assessed through moose call assessments and will determine how climate change and the increase of temperature is affecting the time of year that moose are mating and how it is changing the hunting times for the First Nations people.

REINFORCE THE TRADITIONAL KNOWLEDGE TRANSFER from elders to youth and will demonstrate the effect climate change has on the community and its surrounding natural environment and will provide a baseline that will aid in adaptive actions.

Economic Development Report

Waubetek Outreach June 8, 2018

Waubetek Business Development Corporation
"A Community Futures Development Corporation"

WAUBETEK

Waubetek Outreach

June 8, 2018 at Lands and Resources, Bear Island

Catherine Debassige, Business Development Officer for Waubetek visited Bear Island on June 8th.

Catherine is a member of the M'Chigeeng First Nation and has a background with the Business Development Bank of Canada, where she supported Indigenous entrepreneurs with financing and consulting options.

She also worked with Gezhtoojig Employment and Training in Sudbury, Ontario, as a Business Counselor, serving the surrounding First Nation communities. She is an Instructor in Business Fundamentals, and Accounting courses as a way to share knowledge and encourage entrepreneurship at the post-secondary level, and has assisted with Community Economic Engagement Planning.

Along with myself, TFN Economic Development Officer John Shymko, she met with community members to discuss Waubetek services and the merits of a business plan with a free personal workshop entitled "Small Business Cash Flow & Funding Options".

As an additional workshop, Catherine and I met with Patsy Turner and a number of students from the Laura McKenzie Learning Centre. We discussed business fundamentals and entrepreneurial concepts and found that a number of students were well on their way in setting up businesses of their own.

Catherine wrote me later and stated that it was "so inspiring to see young people take action! We should think about additional ways to highlight young entrepreneurial spirit to continue to nurture and support their efforts!"

We are currently working to establish a First Nations Young Entrepreneur Network.

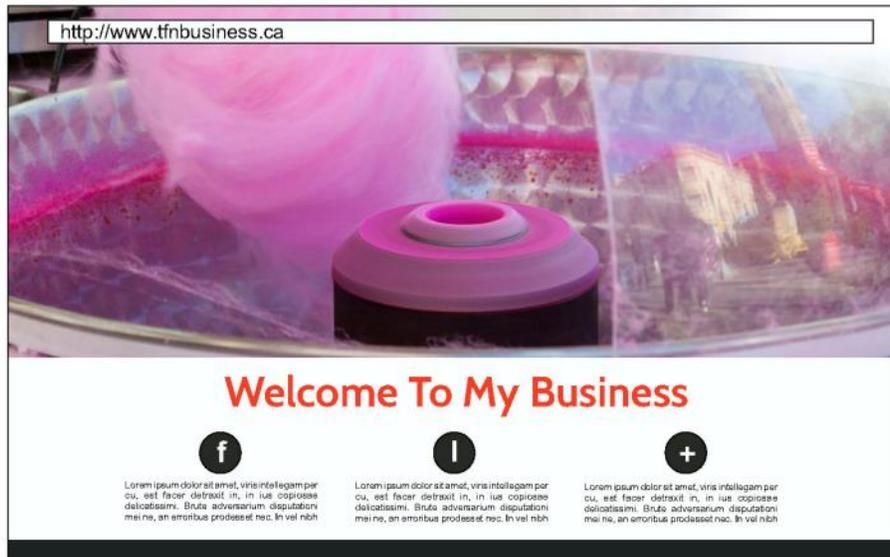

John Shymko, Economic Development Officer, Temagami First Nation,

Free websites available to band members' businesses

TFN Economic Development, through the Lands and Resources department, is offering free webpages to Temagami First Nation members' businesses. A professional webpage will be designed for all interested members to promote their businesses and a link will be provided on the Temagami First Nation Website. There is no charge for this service.

Please email John Shymko, Economic Development Officer, at ecdev@temagamifirstnation.ca, or call Lands and Resources, **705-237-8600** to book an appointment with John to discuss what photos and information is needed.

Items a business website should have.

- 1) A phone number. 2) An email address.
- 3) Business Hours. 4) Business Location
- 5) A photo of your Business, or an image related to your business.
- 6) A photo of the business owner(s).
- 7) A description of what you do.
- 8) A logo, if you have one. 9) A link to a facebook page, if you have one.

Lake Temagami Eco Bungalows are situated on a pristine deep clear lake with stunning views.

You will enjoy beautiful sunsets and discover the reason why so many return to this area! You will have a chance to catch lake trout, pickerel, whitefish and ling; all of which are great tasting!

Build some great memories with friends or family and reconnect with nature.

I offer a clinical approach to Massage Therapy by first assessing the patient's limitations and then focus on restoring full function during the treatment. I use various pressures during the massage depending on needs and limitations in the soft tissue. Every massage technique requires a different amount of pressure, for example lymphatic drainage is a very light pressure massage as to not collapse the drainage pathway. Whereas trigger points ('knots') require a deeper pressure technique.

WELCOME TO THUNDER PIPE LODGE
Trees touch the sky on Lake Temagami, an area celebrated for its pristine wilderness and stunning canoe routes. Here you will find one of the world's last old growth whitepine forests and feel the healing spirit of over 6,000 years of Temagami Anishnabai cultural heritage.
Your home base is Thunder Pipe Lodge on Bear Island. Surrounding you are deep woods, the comforting call of loons, and tribal elders who will share ancient teachings around the campfire.

Indigenous Culture Fund Grants

Still Open For Submissions

ONTARIO ARTS COUNCIL
CONSEIL DES ARTS DE L'ONTARIO
an Ontario government agency
un organisme du gouvernement de l'Ontario

<http://www.arts.on.ca/grants/icf-small-grants>

Please be aware that the Ontario Arts Council offers a grant relating to Indigenous Culture of up to **\$5000.00** known as the **Indigenous Culture Fund Small Grant**.

First-time applicants, youth and elders are all encouraged to apply for these with proposed short-term community, culture and way-of-life projects.

Applications are reviewed with a quick turnaround time. Ontario-based Indigenous organizations, groups and individuals are eligible.

There are five funding categories:

- 1) **Community/Culture/Way of Life:** for projects, events or activities

Examples:

Organizing a cultural camp where Elders, language speakers and knowledge keepers take youth out on the land and share their teachings.

Hosting a gathering where traditional medicines and harvesting teachings are shared with community members.

- 2) **Indigenous Language Projects**

Examples:

Running Indigenous language immersion classes in the community.

Participating in an Indigenous workshop, program or class as an individual learner.

- 3) **Cultural Research, Documentation, Tools and Resources**

Examples:

Developing a protocols tool-kit that will support archaeological digs in the community.

Researching and documenting stories about the local community and land to share with future generations.

- 4) **Cultural Mentorship or Learning**

Examples:

A master birch bark canoe maker mentors an emerging maker on traditional techniques for a period of time.

A community group offers family and all-ages drumming workshops.

(continued on next page)

5) Travel related expenses to attend and/or participate in community or cultural activities, events, workshops or conferences which are typically unavailable in your community.

Examples:

Attending a sweat lodge ceremony in another community.

Participating in a traditional medicines workshop in another region of the province.

The program funds:

Administrative, programming, material, equipment and technical costs or fees to implement the proposed project.

Childcare costs for project staff and participants.

Projects that take up to one year to complete.

Out-of-province projects are eligible in the Travel category only.

There are three questions on the application form. You will also be asked to submit a résumé, brief biography, or organizational history and a simple budget outlining what your project expenses will be.

Questions

1) Tell us about your cultural context and your connection to community. In this section, you may describe the work you do, where you are located, your experience and how they relate to your funding request. You may also talk about how you define your community, and how you work in that context. (500 words maximum)

2) What are you planning to do? Clearly describe your project. Let us know where and when the project will take place. Describe how the project will develop and be completed. (500 words maximum)

3) How will this project create opportunities for Indigenous participant(s) to engage in, learn and share their cultural practices and expand their traditional knowledge? What are the long-term impacts on the participant(s) and/or their community as a result of participation? (500 words maximum)

I can help you apply for this.

Please call me at 705 237 8600 to set up an appointment.
